Legal Requirements

The EU regulation No 1227/2011 about the integrity and transparency of wholesale energy markets (**REMIT**) sets out binding reporting requirements for market participants of electricity and gas markets:

- **transactions data (for contracts)**
 - standard contracts of stock market (notifiable since 07.10.2015)
 - off-broad special contracts (notifiable since 07.04.2016)
- **fundamental data (for plants)**
 - production and storage capacity
 - consumption
 - transmission and transport capacity

For these transactions strict demands are made in relation to

- **timely reporting,**
- **file format and**
- **documentation of data transfer.**

In most cases a registration at the German Federal Network Agency is required, which reports the data to the Agency for the Cooperation of Energy Regulators (ACER). Following companies may be subject to registration:

- **energy producers**
- **transmission system operators**
- **distribution system operators**
- **consumer**
